

SumTotal Courseware

Learning serves as a central component of an organization's people strategy. Having content that ensures both the individual and the organization have what they need to succeed is of the utmost importance. As part of SumTotal's overall content strategy, we leverage our 25+ years of experience integrating courses with SumTotal Learning solutions to provide you a courseware offering that is ready-made for a variety of topics. Whether you're looking for courseware to develop a comprehensive business curriculum, support a blended learning strategy, ensure regulatory compliance, or offer simulations, mentoring, pre- and post-assessments, professional certification or CEUs, SumTotal can make it easier.

Top Quality, Pre-Integrated Content	Thousands of courses that are ideal for filling universal training needs to help you save time and money.
Single Source	Take the complexity out of purchasing off-the-shelf courseware. We handle it all for you.
Consistent	Deliver the most current, relevant, in-context learning and talent content to employees.

Developing talent, not just tracking training hours

SumTotal's courseware offerings provide a means for continuous learning in support of key skill development, program requirements, or other critical business processes. With this turn-key courseware solution, learners can complete training at their own pace on the topics that are most critical to their needs.

86%

of users were able to apply the learning from courseware within six weeks of completion.

Upto 50%

faster assimilation of content when delivered as self-paced courseware versus classroom delivery.

Did you know?

- The purpose of courseware is to drive business results. Therefore, SumTotal delivers the most extensive learning courseware offering, ensuring the best possible learning experience and the right business impacts for your learners.
- SumTotal is the only LMS provider able to serve customers of all sizes with unique SkillSoft offerings that no other reseller can provide. In addition to allowing customers to create custom catalogs, SumTotal also works with Skillsoft to develop competency-mapped and vertical specific content bundles for SMB and enterprise customers—including access to Skillsoft's full courseware
