General Description

Reviews components of the EASE system. Introduces tips and short-cuts for answer analysis. Includes hands-on experience in creating stacked simulations and questions with advanced answer analysis. Provides an opportunity for participants to obtain individual assistance with their own CBT courses.

Objectives

Upon the completion of this course, students will be able to:

- Copy, insert, and delete answer groups
- Answer judge for multiple fields and PF keys
- Create learner control
- Use variables in your test
- Answer judge for numerical ranges

Workshop Outline

EASE Review

- Ease course structure
- Authoring modes

Stacked Simulations

- Judging for multiple fields
- Judging for fields plus a PF key

Branching

- Menus

Answer Analysis

- Copying, inserting, deleting answer groups
- Judging for specific key presses

Various Question Types

- Matching
- Ranking
- Mark-with-an-X
- Multiple fill-in-the-blank

Note 1: Fees are exclusive of instructor travel and lodging expenses. Upon completion of the training described herein, the Customer will be invoiced for the fees and all instructor travel and lodging expenses incurred with payment net 30 days.

Note 2: Time is built into the workshop to allow questions from the student audience. It is important to note that the instructor is responsible for maintaining the class schedule to ensure all items in the planned workshop are addressed. Answers to questions that are customer specific may be postponed until Pathlore's services organization is engaged by the customer to analyze the environment and application in order to formulate an effective response. If the customer is able to submit a set of questions to the instructor at least 3 business days prior to the scheduled class the instructor may be able to answer customer specific inquiries during the workshop.
