Business Challenge

As a global diversified financial services group, flexigroup® operates under tight regulatory oversight. As a result, compliance is an organisational priority. Facilitating and delivering this training posed several challenges, including catering to a globally dispersed workforce as well as its extended enterprise of over 1,700 seller groups, around 17,700 individual sellers in Australia and 27,000 partners across Australia, New Zealand and Ireland.

flexigroup® recognized that its existing learning management system (LMS) was no longer fit for purpose, and sought a solution that could support their extended enterprise. They also wanted better tracking and auditing capabilities, particularly given the anticipated tighter financial regulation controls on the industry. Additionally, the new LMS must integrate fully with Workday, flexigroup®s core HR platform.
